### OBJECT OBSERVATION AND ANALYSIS

CONTENT RECOMMENDED FOR ELEMENTARY/MIDDLE SCHOOL STUDENTS

#### EXHIBITION OVERVIEW

“Kentucky Military Treasures: Selections from the Kentucky Historical Society Collections” highlights personal stories that exemplify the military experience and demonstrate the significant contributions and sacrifices that Kentuckians have made in service to the nation in battle and at home. This selection of artifacts is pulled from the collection of the Kentucky Military History Museum which is housed at the Old State Arsenal.

“Kentucky Military Treasures” is thoughtfully presented in a timeline chronicling major U.S. conflicts beginning with the War of 1812 and continuing to present engagements in Afghanistan and Iraq. Within the exhibition students can examine primary sources including artifacts, photographs and manuscripts from over 200 years of military history. They will also have the opportunity to study signature stories highlighting the experiences of seven Kentuckians and their service in the military. Also included in the exhibition are a selection of personal experiences told through letters, poems, audio recordings, oral histories and emails.

#### BACKGROUND INFORMATION

##### War of 1812

Often called the Second War of Independence, the War of 1812 once again pitted the U.S. against Great Britain. Impressment of seamen and infringement of commercial rights prompted President James Madison’s call for war. Also, the U.S. objected to British alliances with Native Americans that frustrated its expansion westward. Kentucky contributed approximately 18,000 troops to the war and suffered a high proportion of the nation’s casualties. The war ended in a negotiated settlement in 1814. Prominent Kentucky statesman Henry Clay, already Speaker of the House, played an important part in this effort.

##### Mexican-American War

In 1845, the annexation of Texas strained diplomatic relations between the U.S. and Mexico. When diplomacy failed, war broke out in 1846. Drawing on a strong military tradition, Kentuckians from all walks of life volunteered. Approximately 5,000 volunteers from the commonwealth served in four regiments during the two-year war. The war focused national

debate on the extension of slavery into the southwest, in the name of Manifest Destiny. Internal strife over the expansion of slavery led the nation toward the Civil War.

##### Civil War

In 1861, following many years of debate and futile attempts at compromise over the issue of slavery, sectional tension finally erupted in civil war. A month after the outbreak of war, Kentucky chose a policy of neutrality. Four months later, Kentucky abandoned its neutral stance to support the Union, but this hardly resolved the problem of divided loyalties within the commonwealth. Kentuckians served in both the Confederate and Union armies. Over 24,000 Kentucky African Americans wore Union blue. During the Civil War, more American soldiers died from battle wounds and disease than in any other conflict. Technological advances changed the nature of warfare, making it deadlier than ever before.

##### World War I

Fragile alliances holding Europe together collapsed in 1914. The international war drew in the U.S. within three years. Some 84,000 Kentuckians, 13,000 of them African Americans, served in the war and about 2,400 died. The contributions of men and women left behind led to the first widespread use of the term “homefront.” Deadlocked in trench warfare, the conflict caused death and destruction on a scale as never seen before. The war brought down empires, created a new and unstable world order and entangled the U.S. irreversibly in world military affairs.
