Monthly Bonus Presentation by KTIG

The Kentucky Technology in Genealogy Users Group (KTIG) meets monthly at 2:00 p.m. following the close of each "Second Saturday" Family History Workshop at the Thomas D. Clark Center for Kentucky History in Frankfort. Each meeting features a program designed to help support family-history researchers' use and understanding of technology as it applies to genealogy, and often complements the topic for that day's workshop. There is no charge to attend the KTIG Program, and all interested persons are invited to participate.
